

Настройка окружения

1. Установка и настройка Ubuntu 24.04 LTS

2. Установка всех необходимых компонентов, включая VS Code, Git, Terraform, Virtual Box

```
dudzich@Programmer9: ~  
dudzich@Programmer9:~$ git --version  
git version 2.43.0  
dudzich@Programmer9:~$ terraform --version  
Terraform v1.9.7-dev  
on linux_amd64  
  
Your version of Terraform is out of date! The latest version  
is 1.9.7. You can update by downloading from https://www.terraform.io/downloads.  
html  
dudzich@Programmer9:~$
```

3. Создан аккаунт и репозиторий GitHub
